

# Wine, Women and...Health

Please join Peconic Bay Medical Center Executive Director, Amy Loeb and other experts for an informative discussion about the latest in diagnosis, treatment, and prevention of women's health issues on the East End.

During this thought-provoking, interactive dialogue, Amy will also layout PBMC's plans for the expansion of health services for the women of our community.

This event will help shape the future of women's health services for our mothers, sisters, daughters, partners, and our ourselves for years to come. All this while enjoying a glass of wine at this beautiful vineyard setting.

**Wednesday, August 18, 2021**

6pm to 8pm
