

Peconic Bay Medical Center travel and testing requirements

Any international traveler who is asymptomatic, will need to verbally attest to the following requirements:

Asymptomatic *unvaccinated* international traveler must:

- Self-quarantine for seven (7) days upon arrival to the U.S. and a negative test three (3) to five (5) days after travel.
- or
- Self-quarantine for ten (10) days upon arrival to the U.S. with no test after travel.

Asymptomatic *vaccinated* international traveler must:

- Travelers who have been fully vaccinated (two (2) weeks after completing their second dose in a two (2) dose series with Pfizer or Moderna or a single dose of the Johnson & Johnson Jansen vaccine) and tested negative on day three (3) through five (5) after travel.
- Asymptomatic international travelers with laboratory confirmed COVID-19 in the past 90 days and tested negative on day three (3) through five (5) after travel.

An international traveler who is not able to attest to meeting the criteria outlined above will not be permitted to visit. Refer to the Centers for Disease Control and Prevention’s (CDC) website at <https://www.cdc.gov/coronavirus/2019-ncov/travelers/map-and-travel-notice.html> for information on COVID-19 travel recommendations by destination. Refer to the following reference for international travel guideline:

Coronavirus Disease 2019 (COVID-19)
